Proper user management.

The screenshot shows the Checkmk login interface. At the top right is the Checkmk logo. Below it is the heading "Login". There are two input fields: "Email" and "Password". The "Password" field has an eye icon to toggle visibility. Below the "Password" field is a link "Forgot Password?". At the bottom of the form is a large blue "Log in" button. Below the button is a link "New to Checkmk? Try it for free". At the very bottom of the page is the copyright notice "@2024 Checkmk GmbH. All rights reserved".

Getting Started

All resources only one click away!

Tailored onboarding.

How-tos directly in Checkmk.

Powerful, intelligent search.

Powered by world's fastest semantic search

Integrated knowledge sources.

Checkmk docs, videos, forum.

Add your first host

- 1 Create a folder
- 2 Configure your first host
- 3 Add services
- 4 Activate changes
- 5 View monitoring metrics

Create a folder

Let's start with monitoring your first host. What could be more obvious than to monitor the host this Checkmk site is running on. Go [here](#) to add a folder

Main
Setup > Hosts > Main

Hosts Folder Related Display Help

Add host Add folder

(no hosts)

preconfigured_agent

1. Click on "Add folder"

Folder properties

Setup > Hosts > Main > My folder > Folder properties

Folder Display Help

Save Main

Next: Configure your first host

All resources only one click away!
